SKILLS

- **Programming Languages:** HTML, CSS, Javascript, C++, SQL, Python, GIT.
 - **Tools and Platforms:** GITHUB, MySQL, POSTGRE, Netlify, MS Excel, MS Powerpoint.
 - **Design Tools:** Figma, After Effects, Illustrator.
 - **Soft Skills:** Communication, Note Taking, Public Speaking, Adaptability, Planning, Problem Solving.
-

WORK EXPERIENCE

Chic Infotech Pvt.Ltd - [internship]

May 2019 - June 2019

- Coordinated project tasks, ensuring adherence to engineering standards and regulations.
 - Collaborate with other developers to update the website and create new features.
 - Developed and maintained HTML, CSS and JavaScript-based software documentation sites.
-

PROJECTS

Voice Controlled Home Automation (Alexa Clone) :

- Implemented a robust *voice recognition algorithm* to accurately interpret user commands for controlling various appliances such as lights, fans, air conditioners, and electronic devices.
- Utilized Bluetooth module to establish communication between the smartphone and the central control unit, also allowing users to define custom voice commands for specific actions or routines using C Language.

Portfolio Website :

- Created a **responsive** layout that adapts to different screen sizes and devices, ensuring optimal viewing experience across desktops, tablets, and smartphones.
- Implemented smooth scrolling, animated transitions, and intuitive navigation menus to enhance **user engagement** and ease of exploration.
- Included links to my social media profiles for visitors to connect with me on various platforms and stay updated on my latest activities.

Ather EV Webpage (Concept Design) :

- Utilized my expertise in HTML, CSS, and JavaScript to develop a visually appealing and **interactive** webpage layout.
- Implemented intuitive navigation, smooth transitions, and interactive elements to enhance user engagement and provide a **seamless browsing experience**.
- Ensured the webpage design was responsive and optimized for various screen sizes and devices, including desktops, tablets, and smartphones.

Voice Controlled Home Automation (Alexa Clone) :

- Implemented a robust *voice recognition algorithm* to accurately interpret user commands for controlling various appliances such as lights, fans, air conditioners, and electronic devices.
- Utilized Bluetooth module to establish communication between the smartphone and the central control unit, also allowing users to define custom voice commands for specific actions or routines using C Language.

EDUCATION

Vidyalankar Polytechnic, Mumbai	July 2018 - Nov 2020
<ul style="list-style-type: none">Diploma - Information Technology (Percentile - 81.75%)	
Vidyalankar Institute of Technology, Mumbai	Jan 2021 - May 2023
<ul style="list-style-type: none">B.E - Electronics and Computer Science (Percentile - 82.30%)
